

Capacity reservation request form for operators of storage, LNG and production facilities as well as gas-fired power plants

Please return to: Open Grid Europe GmbH, Team "Customer Solutions - Key Account Management", Kallenbergstrasse 5, D-45141 Essen, Germany or scanned as an E-Mail to gastransport@oge.net

Request for the reservation of capacity in the transmission system of Open Grid Europe GmbH pursuant to Sec. 38 of the Gas Network Access Code (GasNZV).

Please fill in fields in block letters

1. Company submitting request

Company	Name of contact
Address	Telephone/fax
City, postal code	E-Mail

2. Location of the plant (please enclose a site- and detailed plan)

2.1 Energy plant

Address	City, district, postal code
---------	-----------------------------

2.2 Delivery station: location proposed for associated delivery station and planned location of associated exit point or existing exit point

Address	City, district, postal code
Gauß-Krüger-coordinates, X-value, northing	Gauß-Krüger-coordinates, Y-value, easting

3. Evidence pursuant to Sec. 38 (2) of the Gas network access code; plant specification (planned)

Type of plant

<input type="checkbox"/> Storage plant	<input type="checkbox"/> Production plant
<input type="checkbox"/> LNG-plant	<input type="checkbox"/> Power plant

First gas withdrawal/injection	Commissioning if other date
--------------------------------	-----------------------------

Description/presentation of project (please enclose separate appendices)

Brief description of plant concept, expansion measures _____ Appendix

Brief presentation of current status of approval procedure _____ Appendix

Description/presentation of project (please enclose separate appendices)

Information about structure of gas withdrawal/injection (temperature-dependent withdrawal/injection behaviour; load hours; minimum/maximum flows, and similar

_____ Appendix

At entry points: Information to the bandwidth of the gas quality (Calorific value, relative density, temperature of the gas, if applicable gas composition of the reference gas) each upper and lower limit

_____ Appendix

Capacity reservation request also filed with other TSO

yes no

The production capacity of the planned power plant will wholly or partly replace the production capacity of an existing gas-fired power plant in the immediate geographic area:

yes no

If yes:

Existing gas fired power station on the network of OGE:

yes no

Identification of the existing gas-fired power plant, webname if applicable

Thermal power input to be substituted by the new power plant (expressed in MW with respect to the upper heating value Ho):

Planned decommissioning date (dd.mm.yyyy):

4. Plant specification and requested scenarios to be checked (please fill in)

Scenario (Amount charged per scenario to be checked: € 3,000 € plus VAT.)	Start Booking period	End Booking period	Entry rate (for injection into OGE-network) [kWh/h]	Exit rate (for withdrawal from OGE-network) [kWh/h]	Required / available pressure (at exit point) [barg]	Type of gas L-Gas	Type of gas H-Gas
No. 1							
No. 2							
No. 3							
No. 4							
No. 5							
No. 6							
No. 7							
No. 8							

Possibly further items to be added

By returning the signed form the company submitting its request places an order with Open Grid Europe for having the checks pursuant to Sec. 38 of the Gas Network Access Code performed by Open Grid Europe.

The amount payable for each requested scenario to be checked is € **3,000 plus VAT**.

Once the filled-in and signed capacity reservation request form together with all required appendices has been received, we will inform you within two weeks whether additional information is required for processing your reservation request. Once the complete set of information is available, we will send you the invoice for the check(s) requested.

If you request the further examination or do not withdraw your request within 2 weeks (reservation declaration), we will proceed with the examination for the reservation of capacities in the network of Open Grid Europe GmbH in accordance with Sec. 38 Gas Network Access Code. From this point in time, the 3-year period pursuant to Sec. 38 (3) sentence 8 Gas Network Access Code will commence. We will inform you of the result of this examination immediately, but not later than two months after the expiry of this two-week period.

Once a positive test result has been reported, the reservation fee must be paid. The reservation shall only become effective upon receipt of payment by OGE. If no payment is made, the reservation will expire (Sec. 38 Number 6 and 9 Cooperation Agreement).

Place, date

Signature of company submitting request / company stamp

Data protection notice

If you contact OGE using the contact form, the personal data you provide will be processed for the purpose of processing your request and contacting you. The legal basis for processing is Article 6(1)(c) of the General Data Protection Regulation in conjunction with Sections 38 and 39 of the German Gas Network Access Code (GasNZV). The retention or deletion period is 10 years, unless an expiry of the purpose of retention is determined in an annual review by us.

You have the right to information, correction, deletion or restriction and portability of your personal data. You also have the right to object to the processing of your personal data.
