Press Release

Essen, 27 May 2021

Network tariffs for Trading Hub Europe published

Uniform postage stamp tariffs determined for the new Trading Hub Europe (THE) market area from 1 January 2022

On 1 October 2021, the new joint Trading Hub Europe (THE) market area will start trading with a uniform tariff which has been determined in accordance with the Federal Network Agency's REGENT 2021 decision.

On 27 May 2021, Open Grid Europe (OGE) published its network tariffs applicable from 1 January 2022. The annual tariff for fixed, freely allocable entry and exit capacity has been set at € 3,51 EUR/(kWh/h)/a.

Compared to the 4th quarter of 2021, in which the uniform tariff will be applied for the first time, the 2022 tariff for firm freely allocable entry and exit capacities in the new THE market area will be around 7,6 percent lower.

About OGE

OGE is one of Europe's leading gas transmission system operators. With our pipeline network spanning approximately 12,000 kilometres, we transport gas throughout Germany. Our geographic location makes us the central link for gas flows across the European single market. 1,450 OGE employees ensure security of supply. We make our network available to all market participants in a transparent and non-discriminatory way in line with market needs. We enable energy supply. Today and in the energy mix of the future.
